2) Interpretation → Message:

What does the cartoon say/express? *Topic sentence of your interpretation.*

What do the frames/element, bubbles stand for/ express?

What ideas does the cartoonist want us to think about/criticize?

What do you think about the issue/do you agree/disagree?

You can also (it helps to avoid repetitions) combine steps 1 and 2!

- **Describe and immediately interpret every relevant element** of the cartoon and then
- **Formulate the overall message** of the cartoon (and e.g. if you agree)
